MEDIA STATEMENT FROM THE PROVIDENCE FOUNDATION

“The individuals referenced in today’s press release by the District Attorney’s office were former employees and are no longer affiliated with the Providence Foundation. This matter reflects the past, and it has been fully resolved, including Providence Foundation's full repayment of the funds identified by the City.

Today, Providence is focused on the future. Under new leadership, we have strengthened financial oversight, deepened accountability practices, and reinforced a culture rooted in transparency and service.

Our commitment remains to the children and families we serve, delivering high-quality, dignifying support and building a stronger, more resilient community.”

-Dexter Hall
Interim Executive Director
